

Dear MacDuffee Clan Society of America,

The document posted below is the work of the Council of Presidents since September 2024. The Council following the unfortunate outcome of the Round 1 effort to settle the Clan name has unanimously decided on the recommendation contained below that should unite our Clan around our significant Scottish Heritage. Please review the document.

I have been honored to represent our Society since September and worked with the Council to finalize this proposal for settling our Clan name. We will now begin the process to determine the best way to solicit your input with a goal of achieving an overwhelming consensus for support of the proposed Clan name. The worldwide Clan has the responsibility to determine the Clan name.

Once we have a settled Clan name, we can then begin the critical action of identifying a qualified Clan Commander candidate for presentation to Carrick, our Court appointed Supervisory Officer, and then for eventual review by the Lord Lyon. The Lord Lyon will assess our candidate then decide if the person is acceptable to serve as Clan Commander. The Council of Presidents will advise shortly regarding the next steps. We encourage all eligible Clan members worldwide to participate in this historical process. Thank you for your support.

*Sincerely,
Donna*
